The screenshot shows the Dynatrace Community Forums interface. At the top, there is a teal navigation bar with 'Support', 'Community', and 'Forums' tabs. Below this is a search bar with the placeholder text 'Find posts, tags, and users...' and a magnifying glass icon. To the right of the search bar is a 'Forums' dropdown menu. The main content area has a breadcrumb trail: 'Home / Public Forums /'. Below the breadcrumb, there is a blue banner announcing the 'Community Member of the Month for June 2017!'. The main section is titled 'All Posts in Dynatrace SaaS & Managed' with a dropdown arrow. To the right of the title are three tabs: 'Last activity' (highlighted in red), 'Newest', and 'Most voted'. Below the tabs, a post is visible. It is by 'STAFF Patrick H.' and is a comment on 'Asad A.'s question. The question title is 'Is the Dynatrace mobile ADK library same as AppMon?'. The post is from '9 hours ago' and is in the 'Dynatrace SaaS & Managed Open Q&A' category. To the right of the post title are statistics: '1 Reply', '0 Likes', and '40 Views'. On the right side of the interface, there are two promotional boxes. The top one is blue and says 'Welcome the Dynatrace Community Forums' with a link to the 'Forum User Guide' and 'Forum Guidelines'. The bottom one is purple and says 'Community Member of the Month June 2017'.

# Dynatrace University

---

- <https://university.dynatrace.com/>
- Online portal for eLearning and education videos

**We are here for you every  
step of the way.**

---

Dynatrace University provides several learning opportunities for you to develop the skills to monitor, manage, and analyze your environment with Dynatrace.

## **On Demand Courses**

Learn and excel with our extensive collection of microlearning videos.

## **Live Training**

Engage with our experts in interactive hands-on labs.

## **Certification**

Take your career to the next level by becoming Dynatrace certified.

## Get started with Dynatrace

---

- <https://university.dynatrace.com/ondemand/course/22170?content=content&section=22171>
- Whether you are just getting started with Dynatrace or converting from another monitoring tool, getting started is easy.

### Get Started With Dynatrace

Whether you are new to Dynatrace or converting from another monitoring tool, getting started is easy. The introductory videos in this course will help you to get underway.

If you are not converting from another tool, you can skip the optional modules. Once you have finished this course, you will be ready for the self-paced [Dynatrace e-learning](#). You can also sign up for [Dynatrace vILT](#) sessions.

Let's get started!

## Dynatrace University – On Demand

---

- <https://university.dynatrace.com/ondemand/dynatrace>
- Knowledge is power
- Learn, apply and grow at your own pace

### Dynatrace Education

Dynatrace provides all-in-one application monitoring with zero configuration. Just install our OneAgent on the host, and from there Dynatrace knows your application. If something breaks, our artificial intelligence tells you exactly where and why it happened.

- Dynatrace provides AI-powered root cause analysis. No more wasted hours searching for problems!
- Dynatrace analyzes application performance and identifies issues quickly across all layers and technologies—from a single, unified platform.
- Dynatrace is designed for any environment, easily scaling to 100,000+ hosts. As your application scales, so does Dynatrace.

## Dynatrace University – Certification

- <https://university.dynatrace.com/certification/dynatrace>
- Certification gives you a competitive edge by validating your Dynatrace skills and knowledge to meet this growing demand

### Dynatrace Certification

All-in-one monitoring for cloud natives

#### Why certify?

Certification gives you a competitive edge by validating your Dynatrace skills and knowledge to meet this growing demand. Whether you simply want greater credibility with your peers or aspire to become a recognized APM Master, certification is essential to your career growth.

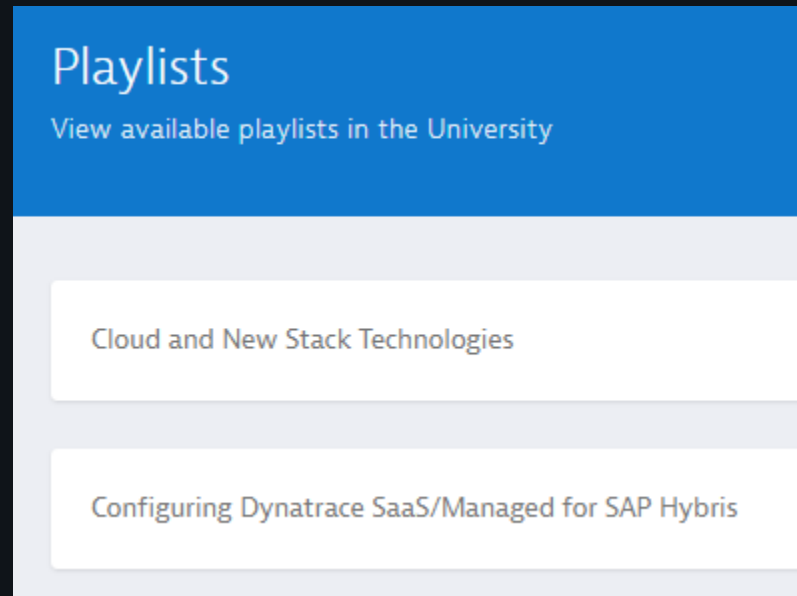

**91%** of IT managers say they value certification and look for them on candidates resumes.

The APM market is growing by **17%** every year and Dynatrace is the clear market leader.
